

ATELIER LUXUS

BESPOKE SWITCHES

For over 25 years, Atelier Luxus has been designing electrical equipment for the most demanding interiors, driven by an unwavering commitment to delivering the extraordinary.

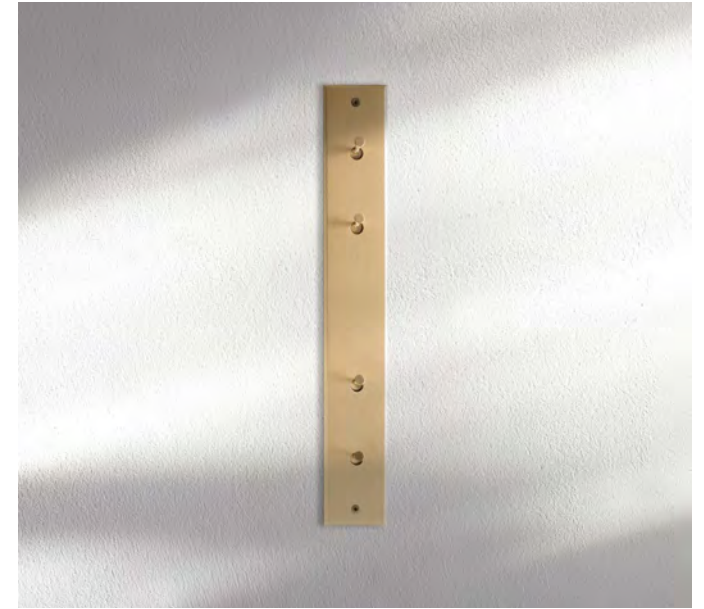

Like any designer, Atelier Luxus has its own unique universe, but it is our dedication to quality, paired with unmatched versatility, that sets us apart. Our bespoke approach, beyond industry norms, allows us to design and manufacture products that are entirely tailored to our clients.

Atelier Luxus' passion for beauty and excellence in the art of living gives rise to products that are true objects of desire.

Crafted in solid brass to stand the test of time and made from materials of exceptional quality, each Atelier Luxus piece benefits from the expertise of a master goldsmith. These unique creations are finished with incomparable refinement and a richness of tone.

The Art of *Bespoke Design*

Atelier Luxus offers endless possibilities for creation.

Combining innovation with artisanal craftsmanship, we offer custom configurations tailored to each project. Whether it's varying faceplate lengths, the multiplication of levers, buttons, and sockets, or the creation of fully bespoke products, we push the boundaries of classic design to deliver exceptional solutions.

DoT

By Erpicum

Atelier Luxus and architect Bruno Erpicum have collaborated to create DoT, the ultimate minimalist collection. As with his architectural research, Bruno Erpicum has carried out a perfect exercise in the search for purity, combined with the ultra-detailed design work of Atelier Luxus.

DoT is available as a fully integrated option on your surfaces or with a face that gives the illusion of a slight floating effect on the wall. Its unique 5mm buttons ensure maximum discretion and is available with all of our handmade patinas.

FLOOR BOXES

ATELIER LUXUS

Bespoke Solutions

Designed to perfectly meet functional requirements while enhancing the style of your interior, our creations are fully customizable to provide a seamless and bespoke experience.

Our customization service offers limitless possibilities: *Tailor-made plates for thermostats, adaptations for systems like Niko Home Control, Crestron, or Lutron, personalized engravings, unique button arrangements, and bespoke finishes.* We also craft custom floor boxes, lighting solutions, and decorative elements to elevate your spaces with precision and elegance.

Our expertise extends to electrical devices, offering solutions *compatible with international standards.* From *push-button mechanisms with potential-free contacts* to a wide range of options such as *USB, HDMI, RJ, thermostats, sensors, and more.*

The possibilities are endless—*feel free to contact us to explore the full range of options.*

Bespoke Narrow faceplate

Lever & Button shapes

Each lever and button is meticulously crafted from solid brass—a noble material we shape with precision to reveal its full depth and character. These elements are finished in the same patina as the faceplate, ensuring perfect visual harmony and seamless continuity.

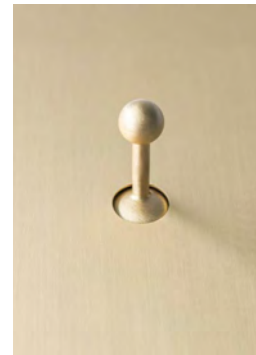

Levers are available in four distinctive shapes: *Tube*, *Ball*, *Cone*, and *Water Drop*. Buttons come in *Dot*, *round*, *square*, and *large square* forms.

Each silhouette is thoughtfully designed to achieve visual balance, offer a satisfying tactile experience, and express a subtle sophistication that lies in the finest details.

AVAILABLE LEVER SHAPES:

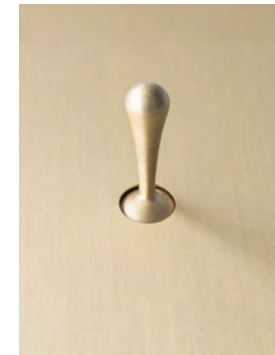

Tube lever

Ball lever

Cone lever

Water drop lever

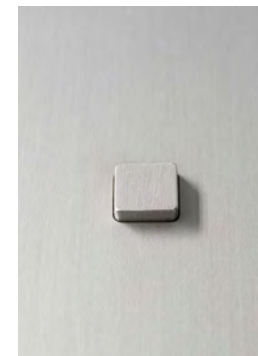

AVAILABLE BUTTON FORMS:

Dot button

Round button

Square button

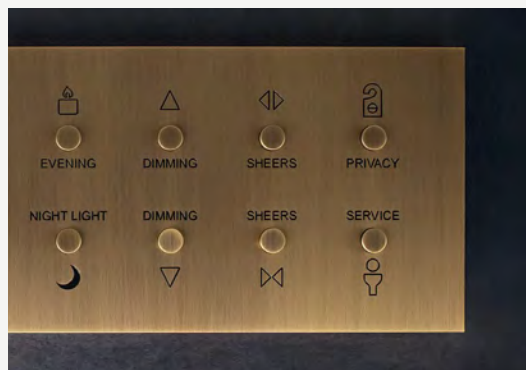

Large square button

Engraving options

We offer two types of engraving to personalize your faceplates and standard buttons – **words** and **pictograms**.

All of our products can be engraved, with the finish matching the faceplate material by default. Alternatively, you can opt for a raw, material-colored engraving for a more understated aesthetic.

Before we commence production, we will provide you with a detailed drawing showcasing the proposed engraving placement on the faceplate. This allows you to review and approve the design prior to us crafting your custom pieces.

ON

WORD ENGRAVING

One or more words can be engraved depending on the space available.

The default font used is Arial Regular, minimum 11 points, and can be in lower or upper case.

BACKLIT BUTTON ENGRAVING

The pictogram should be simple and legible and may be engraved as a fill or outline on the button, allowing light to pass through.

PICTOGRAM ENGRAVING

The pictogram should be simple and legible and may be engraved as a fill or outline.

engraving examples (list not exhaustive)

Patinas & Finishes

With 24 standard patinas, we offer a refined selection of handmade finishes designed to elevate any interior.

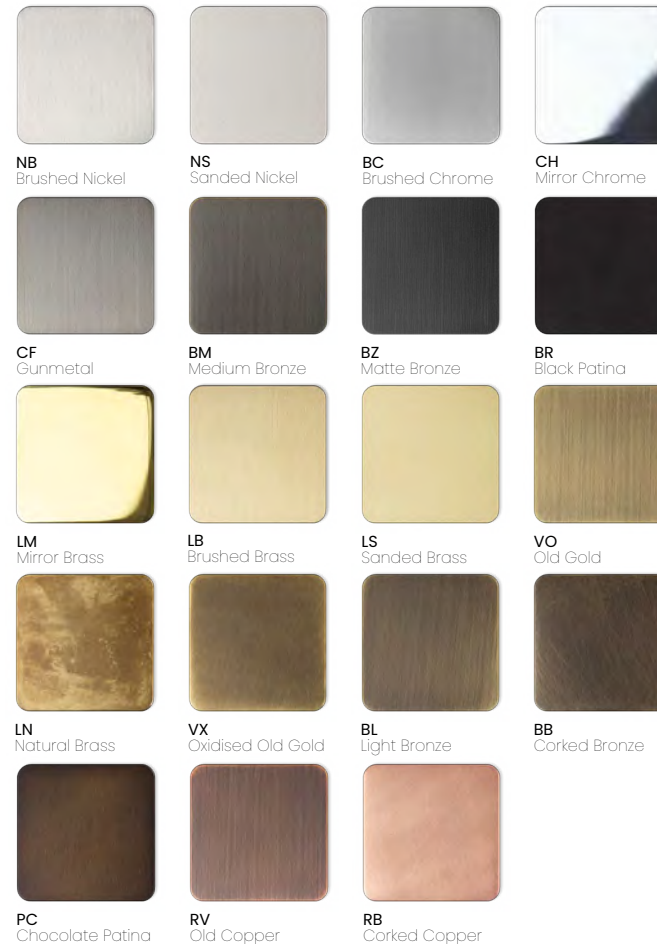

Each shade can be customized with a variety of textures: brushed, sandblasted, polished, oxidized, hammered for a truly bespoke result.

Our commitment to craftsmanship and personalization ensures that every creation reflects your unique vision.

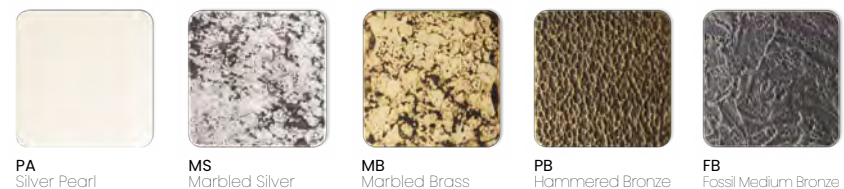

Note that our levers and buttons are always finished to match the faceplate, ensuring a seamless and harmonious look.

This list of patinas is not exhaustive.
